

2019 YORK RECITAL DVD ORDER

Cost is \$30 for the DVD set.

Includes tax and shipping to your home address. Please include your FULL mailing address to insure proper delivery. Copies will be sent approximately 45 days after the April recital. Video Images will choose the most effective camera angles without taking up valuable seating area or being obstructive to the production of the recital. We will try to provide a good mix of close ups and camera angles from our multiple camera setups. Due to the large groups, we can not guarantee close ups of every dancer. Our goal is to provide a pleasurable viewing experience for everyone. The DVD set will be chaptered to enable you to navigate directly to the dance(s) you wish to view.

The 2019 Recital will also be available on a USB storage drive. The storage drive will contain HD version of the recital that you can download to a media device or play on a USB enabled TV. Cost for the drive will be \$15 extra.
